

Families interested in Outdoor School Fundraising

Dear 6th Grade Families,

In the 6th grade year, the students are required to attend Outdoor School. It is an awesome opportunity for the students to get a one of a kind Earth Science education, but as many of you know there is cost to the families of each student that attends: \$107.50 if you live within Multnomah county and \$289.00 if you live outside of Multnomah county. This can be quite a burden. On the bright side, there are several months before this event takes place. Therefore, there is time to plan some fundraising activities.

The following is the list of classroom families interested in working on any fundraising ideas you might have. If you have an idea, here are your workers. When great minds work together, anything is possible.

*Note – please check any idea with Fr. Slider and Jeff Delegato, for their blessing.
